PENNSYLVANIA
IPF Support Network

AN APP CONNECTING PATIENTS TO SUPPORT AND EDUCATION

Our mission is to improve the quality of life for those afflicted with Idiopathic Pulmonary Fibrosis, their families, and their loved ones by providing resources through education, support, and advocacy. To raise awareness of Idiopathic Pulmonary Fibrosis (IPF), the Pennsylvania IPF Support Network created an app to keep resources at the tips of your fingers.

JOIN THE COMMUNITY

This app creates a user-friendly atmosphere for people to get important information about IPF without having to navigate our full website. You can easily find support, connect with others, and learn with ease with the help of our app. Together, we will spread awareness and unite patients, families, and healthcare providers through educational programs, advocacy efforts, and other IPF-related events.

INSTALL ON YOUR IPHONE

- Visit paipfapp.com on Safari
